DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, 18, and 21-23, are drawn to an arm for an elastic doll.

Group II, claim(s) 5-10, 19, and 20, are drawn to a method of manufacturing the arm.

Group III, claim(s) 11-17, are drawn to a mold for insert molding of the arm.

The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is related to an arm for an elastic doll, and group II is related to a method of manufacturing the arm.

The inventions listed as Groups I, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group I is related to an arm for an elastic doll, and group III is related to a mold for insert molding of the arm.

The inventions listed as Groups II, and III do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Group II is related to a method of manufacturing the arm, and group III is related to a mold for insert molding of the arm.

A telephone call was made to Mr. Joseph W. Price on 31 May 2002 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
